

1796 CASTIGLIONE ORDER OF BATTLE

CONTINGENT	FRENCH	POINTS	86	TURNS	20	WEATHER	clear
1 Unit represents	brigade	GENERAL PROVISIONS ON THE BATTLE The French divisions enter the map and reach the indicated positions from which they must move to meet the enemy. Movement is regulated by Action markers until the front ranks can see the enemy. Fiorella's division starts from off the map and moves parallel to the 1st sector, using the sector's octagons as reference points for its movements. Movement is regulated by Action markers, one for each movement. When the division reaches the 2nd row of the Austrian sector's defense area, it enters the field and lines up with the artillery behind it to move up the sector, attacking Sebottendorf's division from behind. Movement is regulated by an Action marker until it comes into visual contact with the first enemy unit.

1796 CASTIGLIONE ORDER OF BATTLE

CONTINGENT	AUSTRIAN	POINTS	83	TURNS	20	WEATHER	clear
1 Unit represents	brigade	GENERAL PROVISIONS ON THE BATTLE Austrian units move from the defense area of their respective sectors, except those led by Schubirz, which are in the most advanced position above Solferino. Movement is controlled by the Action markers until the front ranks can see the enemy. When Fiorella's division appears in the Austrian defense area of the 1st sector, the line infantry unit of Sebottendorf's division, left garrisoned in the Austrian attack area of the 1st sector, must attempt to stop it. To verify whether the order is carried out, a Leadership check must be made, which must be repeated if the first attempt fails until the order is carried out. Movement is the unit's regular movement.
